

# Jason Morris

Accessibility engineer and front-end developer with 20+ years of experience building federal public health websites that serve millions of people. CPWA and Trusted Tester certified, with active clearance.

## Experience

**Lumina Corps** January 2026 to present

Engineering Team Lead

- Leads a team of 5 developers and digital strategists building and maintaining the Office of Disease Prevention and Health Promotion website, which serves about 10 million users a year

**CommunicateHealth** March 2014 to March 2023, July 2024 to December 2025

Accessibility Engineer and Team Lead, Development and Digital Strategy

- Led front-end development for federal agencies including the Department of Veterans Affairs, Centers for Disease Control and Prevention, National Institutes of Health, and Centers for Medicare and Medicaid Services, delivering Section 508-compliant products validated by agency accessibility teams
- Brought Health.gov into the top 1% of the WebAIM Million accessibility rankings
- Developed the Healthy People 2030 website, which serves 4 million users a year, and built Move Your Way campaign components that reached 50 million people
- Rebuilt the award-winning National Eye Institute website to score 100 in all 4 Lighthouse categories (performance, accessibility, best practices, and SEO) across 1,000+ pages at launch
- Established development workflows, CI/CD pipelines, and quality standards across projects, resulting in zero-config local development environments and consistent code quality

**Perkins School for the Blind** March 2023 to June 2024

Senior Digital Accessibility Consultant

- Led engagements combining accessibility consulting, strategy, technical guidance, and program planning for clients including LEGO, Sprout Social, Cengage Learning, Curriculum Associates, and the Commonwealth of Massachusetts
- Assessed websites, applications, documents, multimedia, and data visualizations against WCAG 2.2
- Performed manual testing with assistive technologies and completed Accessibility Conformance Reports (VPAT)
- Developed role-based training for design, engineering, QA, and content teams on writing accessible code and integrating accessibility review into development workflows
- Built browser-based tools to support the accessibility review process

**The Research Foundation for SUNY** January 2006 to March 2014

## Senior Programmer/Analyst

- Developed multilingual internal and external websites for the New York State Office of Temporary and Disability Assistance (OTDA)
- Organized user testing sessions to incrementally improve UX for 200,000 monthly visitors

## Skills

- Accessibility: WCAG 2.2, Section 508, axe, WAVE, JAWS, NVDA, VoiceOver, TalkBack
- Languages and frameworks: HTML, CSS, JavaScript, PHP, U.S. Web Design System (USWDS), CodeIgniter
- Platforms: Drupal, WordPress, Eleventy
- Tooling: Git, GitHub Actions, Playwright, Lighthouse

## Certifications and Education

- Certified Professional in Web Accessibility (CPWA), International Association of Accessibility Professionals
- Trusted Tester v5, Department of Homeland Security
- Russell Sage College, Bachelor of Science, Computer Information Systems

## Publications and Awards

- Contributing Editor to Health Literacy Online, Third Edition
- 2020 ClearMark Award from the Center for Plain Language — Led the development of an accessibility-focused National Eye Institute redesign
- 2016 ClearMark Award from the Center for Plain Language — Developed a guide for parents on physical development delays for the American Academy of Pediatrics
- 2011 Best of New York Award for Innovative Use of Technology from the Center for Digital Government — Developed New York's first responsive state agency website for OTDA
