

Jason Morris

Accessibility engineer and front-end developer with 26+ years of creating and validating experiences on the web.

Experience

Lumina Corps January 2026 to present

Engineering Team Lead

- Leads a team of developers and digital strategists on Federal government and public health projects
- Responsible for front-end development, back-end development, and digital accessibility for the Office of Disease Prevention and Health Promotion (ODPHP) website, which served nearly 11 million users in 2024
- Maintains the Office of the National Coordinator for Health Information Technology (ONC) Health IT Playbooks

CommunicateHealth March 2014 to March 2023, July 2024 to December 2025

Accessibility Engineer, Development and Digital Strategy Team Lead

- Developed and maintained high-traffic federal government websites, tools, and applications related to public health
- Led front-end development work for multiple federal agencies including Department of Veterans Affairs, ODPHP, ONC, National Eye Institute (NEI), National Cancer Institute, Centers for Disease Control, and Centers for Medicare and Medicaid Services
- Brought Health.gov into the top 1% of the WebAIM Million accessibility rankings, a 26x improvement from its baseline
- Launched Healthy People 2030, which served 4 million users in 2024, and built Move Your Way campaign components that reached 50 million people
- Delivered web products validated by accessibility teams from the Department of Health and Human Services (HHS), Centers for Disease Control and Prevention (CDC), VA, and National Institutes of Health (NIH)
- Establishing development workflows, CI/CD pipelines, and quality standards across projects, resulting in zero-config local development environments and increased code consistency
- Contributing Editor to [Health Literacy Online, Third Edition](#)

Perkins School for the Blind March 2023 to June 2024

Senior Digital Accessibility Consultant

- Led client engagements combining accessibility consulting, technical guidance, and program planning for clients including LEGO, Sprout Social, Cengage Learning, Curriculum Associates, and the Commonwealth of Massachusetts
- Assessed websites, applications, documents, and multimedia for conformance with the Web Content Accessibility Guidelines (WCAG) and completed Accessibility Conformance Reports (ACR) using the Voluntary Product Accessibility Template (VPAT)
- Performed manual accessibility testing with assistive technologies, including JAWS, NVDA, VoiceOver, TalkBack, and platform-provided accessibility features
- Provided accessibility strategy and remediation guidance on complex interfaces, including data visualizations, mobile applications, and canvas-centric applications
- Developed role-based training for design, engineering, QA, and content teams on writing accessible code and integrating accessibility review into development workflow
- Built browser-based tools to support the accessibility review process and an accessible client portal and knowledge base integrated with an internal auditing platform

The Research Foundation for SUNY January 2006 to March 2014

Senior Programmer/Analyst

- Developed internal and external websites for the New York State Office of Temporary and Disability Assistance (OTDA), including the first responsive agency website in the state
- Maintained compliance with New York State accessibility policy
- Organized user testing sessions to incrementally improve UX for 200,000 monthly visitors

Awards

- 2020 ClearMark Award from the Center for Plain Language — Led the development of an accessibility-focused NEI redesign
- 2016 ClearMark Award from the Center for Plain Language — Developed a guide for parents on physical development delays for the American Academy of Pediatrics (AAP)
- 2011 Best of New York Award for Innovative Use of Technology from the Center for Digital Government — Created a responsive website for OTDA

Certifications and Education

- Certified Professional in Web Accessibility (CPWA), International Association of Accessibility Professionals (IAAP)
- Trusted Tester v5, Department of Homeland Security (DHS)
- Russell Sage College, Bachelor of Science, Computer Information Systems
