

Jason Morris

Accessibility engineer and front-end developer with 26+ years of creating and validating accessible web experiences.

Certifications

Certified Professional in Web Accessibility (CPWA), International Association of Accessibility Professionals (IAAP)

Trusted Tester v5, Department of Homeland Security (DHS)

Experience

Lumina Corps

Full-time, remote

Engineering Team Lead (January 2026 to present)

- Leads a team of developers and digital strategists as both manager and individual contributor, following the January 2026 merger of CommunicateHealth with Lumina Corps
- Owns front-end development, back-end development, and digital accessibility for the Office of Disease Prevention and Health Promotion (ODPHP) website, which served 10.82 million users in 2024
- Maintains the Office of the National Coordinator for Health Information Technology (ONC) Health IT Playbook and Patient Engagement Playbook and support other federal health projects

CommunicateHealth

Full-time, remote

Accessibility Engineer, Development and Digital Strategy Team Lead (January 2025 to December 2025)

Accessibility Engineer (May 2021 to February 2023, July 2024 to December 2024)

Senior Web Developer (January 2019 to April 2021)

Web Developer (March 2014 to December 2018)

- Developed and maintained high-traffic federal government websites, tools, and applications related to public health

- Led front-end development for 8 federal agencies: Department of Veterans Affairs (VA), ODPHP, ONC, National Eye Institute (NEI), National Cancer Institute (NCI), National Heart, Lung, and Blood Institute (NHLBI), Agency for Toxic Substances and Disease Registry (ATSDR), and Centers for Medicare and Medicaid Services (CMS)
- Raised Health.gov into the top 1% of the WebAIM Million accessibility rankings, a 26x improvement from its baseline, and kept it there across several years of releases
- Launched Healthy People 2030, which served 4.18 million users in 2024, and built Move Your Way campaign components that reached 50 million people
- Assessed and remediated accessibility of digital documents, audio, video, legacy web applications, and iOS/Android applications
- Delivered web products validated by accessibility teams from the Department of Health and Human Services (HHS), Centers for Disease Control and Prevention (CDC), VA, and National Institutes of Health (NIH)
- Led a team of developers and digital strategists, establishing development workflows, CI/CD pipelines, and quality standards across projects, resulting in zero-config local development environments and increased code consistency
- Regularly communicated with stakeholders to receive feedback and suggest solutions

Perkins Access

Full-time, remote

Senior Digital Accessibility Consultant (March 2023 to June 2024)

- Led client engagements combining accessibility consulting, technical guidance, and program planning for clients including LEGO, Sprout Social, Cengage Learning, Curriculum Associates, Disability Rights Fund, and Massachusetts EOTSS
- Assessed websites, applications, documents, and multimedia for conformance with the Web Content Accessibility Guidelines (WCAG) and completed Accessibility Conformance Reports (ACR) using the Voluntary Product Accessibility Template (VPAT)
- Performed manual accessibility testing with assistive technologies, including

JAWS, NVDA, VoiceOver, TalkBack, and platform-provided accessibility features

- Provided accessibility strategy and remediation guidance on complex interfaces, including data visualizations, mobile applications, and canvas-centric applications
- Developed role-based training for design, engineering, QA, and content teams on writing accessible code and integrating accessibility review into development workflow
- Consulted on inclusive design practices early in the product lifecycle to reduce the effort and cost required to build inclusive digital experiences
- Helped interview, onboard, and mentor 12+ contractors, reviewing their deliverables before client submission
- Built browser-based tools to support the accessibility review process and an accessible client portal and knowledge base integrated with an internal auditing platform

The Research Foundation for SUNY

Full-time, on-site and hybrid

Senior Programmer/Analyst (May 2012 to March 2014)

Information Systems Assistant (January 2006 to May 2012)

- Developed and maintained internal and external websites for the New York State Office of Temporary and Disability Assistance (OTDA), including the first responsive agency website in the state
- Maintained compliance with New York State accessibility policy
- Organized user testing sessions to incrementally improve UX for 200,000 monthly visitors

Awards

2022 ClearMark Award from the Center for Plain Language — Developed the Les Turner ALS Foundation “My ALS Decision Tool”

2020 ClearMark Award from the Center for Plain Language — Led the development of an accessibility-focused National Eye Institute redesign

2020 NAGC Blue Pencil & Gold Screen Award, Second Place for Websites — National Eye Institute redesign
